

UP-CR10L Photoshop Plug-in Module Compatibility

Windows Version	Photoshop Version	UP-CR10L Plug-in Module
Windows Vista (64-bit)	PhotoshopCS4(64-bit mode)	-
	PhotoshopCS4(32-bit mode)	✓
	PhotoshopCS3(32-bit mode)	✓

Note: In the case of Windows Vista(64-bit), if PhotoshopCS4 is installed, the program files are saved under both "Program Files" and "Program Files(X86)". If PhotoshopCS3 (or any other the application software for 32-bit) is installed, the program files are saved under "Program Files(X86)" folder only.

So, please install UP-CR10L Photoshop Plug-in into following folder.

"Program Files(X86)" -> "application" -> "plug-in" folder

And then run 32-bit version Photoshop.
