Electronics

Despite an expected increase in sales primarily of BRAVIA™ LCD televisions, VAIO™ PCs and Cyber-shot™ digital cameras, sales are expected to be flat compared to FY07 mainly due to the impact of the appreciation of the yen against the U.S. dollar. Although a significant improvement in operating profitability is expected for the television business, overall operating income is expected to decrease mainly due to the impact of the appreciation of the yen against the U.S. dollar.

Pictures

A decrease in sales is expected mainly due to the impact of the appreciation of the yen against the U.S. dollar. A decrease in operating income is anticipated as the benefit from the sale of a bankruptcy claim against KirchMedia in FY07 is not expected to recur in FY08.

Game

Despite an expected decrease in Game segment sales in connection with a decrease in sales for the PS2 business, the Game segment as a whole is expected to have positive operating income for FY08 as the profitability of the segment will improve significantly as a result of hardware cost reductions and an enhanced line-up of software titles in the PS3 business.

Financial Services

The effect of gains and losses on investments at Sony Life due to stock market fluctuations are not incorporated within the forecast for FY08. Therefore, we anticipate a significant increase in revenue and operating income within the segment compared to FY07 which experienced the effect of a downturn in the Japanese stock market.

* Includes a reversal totaling 15.7 billion yen of the provision for expenses relating to a voluntary notebook computer battery pack recall and our voluntary global replacement program, a 60.7 bln yen gain on the sale of a portion of the site of Sony's former headquarters, a 15.6 bln yen gain relating to the sale of a portion of Sony's semiconductor operations in Nagasaki, and a 10.0 bln yen gain on the sale of an urban entertainment complex in Berlin
